EDUCATION

The University of Texas at Austin, Austin, TX — May 2028

Bachelor of Science, Chemical Engineering and Business

- GPA: 3.65 | University High Honors (4 semesters)
- Relevant Coursework: Finance, Accounting, Applied Statistics, Management Information Systems, Thermodynamics, Transport Phenomena, Chemical Engineering Materials, Vector Calculus, Differential Equations/Linear Algebra, Physics 1/2

EXPERIENCE

EMERSON AUTOMATION SOLUTIONS, Austin, TX — May 2026 – Aug 2026

Engineering Sales Analyst

- Built ROI and cost-savings models in Excel for DeltaV Edge Environment and DeltaV Live Premium, turning control-system capabilities into plant-level business cases; projected to drive a 10% increase in product sales.
- Quantified the financial drivers behind customer purchase decisions to guide pricing and positioning, including up to 75% faster OT-IT integration and abnormal-situation response success raised from 70% to 96%.
- Converted the model into an AI-powered Power BI dashboard so sales teams could self-serve pricing decisions; presented the model and recommendations to Emerson VPs.
- Worked independently with sales engineers to document DeltaV Flex and PK Flex subscription wins; produced a customer story series that VPs added to next quarter's plans.

NATIONAL INSTRUMENTS, Austin, TX — Aug 2025 – Dec 2025

Project Manager Intern

- Built a Power BI dashboard consolidating 15+ customer interviews and 50+ AI test prompts, segmented by use case, customer segment, and issue type.
- Turned the analysis into recommendations, prioritizing 5 AI workflows and 3 roadmap improvements with engineering.

COLEY GCS, Austin, TX — Jan 2025 – Dec 2025

Product Manager Lead

- Led cross-functional Agile sprints at an early-stage startup to deliver a federal-contracting automation platform, replacing 10+ manual steps and cutting review time ~70%.
- Built pricing models and a go-to-market plan across 3 customer segments, projected to increase qualified leads 20%.

TEXAS UNDERGRADUATE CONSULTING GROUP, Austin, TX — Spring 2026

Project Manager, Tecovas Engagement

- Led a 5-person team analyzing pricing and product gaps across 150 listings from 10 competitors in Excel.
- Presented 3 assortment recommendations to Tecovas' merchandising team, informing their next merchandising review.

LEADERSHIP & COMMUNITY INVOLVEMENT

LONGHORN RACING (FORMULA SAE), Austin, TX — Aug 2024 – Present

Business Operations Lead, Combustion Team & Composites Engineer

- Secured a Chevron sponsorship and drove $100K+ in funding through 20+ corporate-relations touchpoints and negotiations.
- Managed procurement, inventory, and BOM accuracy for composites manufacturing, tracking material costs and vendor lead times to keep the build on schedule.
- Designed carbon-fiber layups with FEA, balancing structural performance against material cost; finish improved 20 places.

LONGHORN CUBE (CHEME CUBE COMPETITION), Austin, TX — Jan 2025 – Present

Founder & Team Lead

- Built an Excel cost model comparing scenarios across sorbent efficiency, plant scale, and throughput to minimize levelized cost of capture for a Direct Air Capture reactor concept.

PERIOD PACT HOUSTON, Houston, TX — 2024 – Present

President

- Distributed $2M+ in menstrual products to 150+ schools; built a request-management app for 100+ users that cut ~7 hrs/week of manual work and tripled distribution speed.

SKILLS

Technical/Computer Skills: Advanced Excel (financial modeling, ROI and cost analysis, scenario analysis), Advanced Power BI, Intermediate SQL, Intermediate Python, Intermediate MATLAB, SolidWorks, FEA, DeltaV DCS

Business: Business case development, pricing analysis, cost modeling, competitive analysis, executive presentations

Languages: English, Marathi (Fluent), Spanish (Intermediate)

HONORS AND AWARDS

- 2x NCWIT National Impact Award · United Nations Impact Award · 1st of 120 posters, Gulf Coast Research Symposium
